**BUILDALL**

ENGINEERING THE FUTURE OF TOMORROW

**PRE-ENGINEERED | PREFABRICATED | MODULAR | PORTABLE**

SMART & SUSTAINABLE CONSTRUCTION

## ABOUT US

BuildAll introduces groundbreaking technology by offering pre-engineered and prefabricated building solutions, expandables and foldables, pick-n-place, mobile solutions and more. The construction is environment friendly, sustainable, strong and offers a quick turnaround time.

In our rich experience, S.Shaha & Co. has constructed **950+ buildings** in various parts of India and Bhutan. Our tech partners are Tata Steel Nest-in & Tata BlueScope Steel.

Led by the dynamic Chandroma Saha, we provide turn-key building Construction Solutions using state of the art pre-engineered & prefabricated Building Technology. Our solutions are aesthetic, practical and safe; a one stop solution from designing to construction.

## WHY US

Lifetime Structure Stability Certificate

Quick Turnaround times

Sustainable, Design & Construction

Robust Safety Compliance

# AWARDS & RECOGNITIONS

## A leader focused on a sustainable future

Chandroma Saha receives the award from Kabir Bhatia.

**C**handroma Saha is currently working as the director of Saha Steel Group. She entered into the Construction Business at the age of 16 yrs, with a different view of sustainable construction. She did B. Tech in Electronics & Instrumentation from Sathyabama University and Post Graduate Programme in Management (ePGP) from IIM Ahmedabad. Chandroma Saha has taken an active role in promoting business initiatives across multiple sectors such as Tata Shakti, Durashine, Agrico, Paints, Wires, Bearings, Fasteners, etc. other than Steel Construction Sector. She has held and continues to hold several key positions in various Professional Bodies. She holds the position of President of Business Network International (BNI), member of Federation of Association of Small Industries of India, Bengal Chamber

Industries. I believe in empower of women in Business so that they can also explore their skills and creativity. Her significant achievement is Successful completion of 20 schools within 90 days across 24 location, for Government of Odisha. Successful completion of 50 homes for flood-affected families in Kashmir in 90 days. Getting order of 87 buildings from Military Engineering services and many more. We are responsible citizen of Planet and 30% of pollution is caused due to Construction. If we change the method of construction and make it green or sustainable construction. It will lesser the pollution. The best part is our ability to impact change in society by doing projects which have a social cause. Our aim is to spearhead 3D printing in

ET Now. In Industry Icons 2025 - East Chapter | Celebrating Business Excellence The Times Group hosted an evening of recognition and celebration on 31st January 2025 at JW Marriott, Kolkata, honouring distinguished leaders from the corporate world and the education sector for their remarkable contributions to Eastern India.
